IT Artefact Design & Workpractice Improvement (ADWI-2013)
June 5, 2013, Tilburg

WORKSHOP PROGRAM

900-930	Registration	
930-945	Introduction, *Göran Goldkuhl and Hans Weigand*	
	Session: Action research & design research (chair: *Brian Donnellan*)	
945-1020	Discovering the significance of scientific design practice: new science wrapped in old science?, *Richard Baskerville, USA & Jan Pries-Heje, Denmark*	
1020-1055	What is a 'wicked problem' for IS research?, *Rob Gleasure, Ireland*	
1055-1115	Break	
1115-1150	Action research vs. design research: Using practice research as a lens for comparison and integration, *Göran Goldkuhl, Sweden*	
1150-1225	Pragmatic dilemmas in action research - Doing action research with or without the approval of top management?, *Stefan Holgersson & Ulf Melin, Sweden*	
1225-1340	Lunch	
	Session: Action theorizing and IS design (chair: *Hans Weigand*)	
1340-1415	Architecting social interaction: experiences from e-health design research in the U-CARE program, *Jonas Sjöström & Pär Ågerfalk, Sweden*	
	Session: Action research & design research (chair: *Richard Baskerville*)	***Session: Perspectives and goals in practice development*** (chair: *Göran Goldkuhl*)
1415-1450	Action Design Research: Expanding the scope, *Stefan Cronholm & Hannes Göbel, Sweden*	Investigating and assisting the practice of healthcare commissioning in the United Kingdom, *Nick Harrop, Alan Gillies & Trevor Wood-Harper, UK*
1450-1525	What are the siblings of design science?, *Paul Johannesson, Erik Perjons & Ilia Bider, Sweden*	Investigating rationality, in concept and use, in a model for IT maintenance and governance, *Jenny Lagsten & Malin Nordström, Sweden*
1525-1550	Break	Break
	Session: Communication theorizing and design (chair: *Göran Goldkuhl*)	***Session: Action perspectives on IT artefact theorizing*** (chair: *Rob Gleasure*)
1550-1625	Improving communication and collaboration in social innovation projects - a pragmatic research agenda, *Hans Weigand & Aldo de Moor, the Netherlands*	Symbolic interactionism and the cell information board: challenging the wisdom of systems, *Gabriel Costello & Brian Donnellan, Ireland*
1625-1700	Paradigmatic and Syntagmatic Views of Developer Workpractices, *Rodney J. Clarke, Australia*	The equipment nature of 'the so-called' IT Artifacts – Holistic ontology based IS design principles, *Nathan Lakew & Katarina Lindblad-Gidlund, Sweden*
1700-1730	Open dialogue. Closure.
